For Spring Work

The Herring Spring-tooth Caltivator is not excelled in Whomaship, stringth or material and perfection of work. The teeth, which are twelve in number, are male of the best English Spring Steel, and are placed in two combs in, such manner that their points work on a line between the wheels, thus preventing the teeth from twisting or warping. They cannot possibly track, and it allows them to follow any uneveness in the ground, and thus thoroughly pulveriess all of it gone over. By means of two levers the teeth can be adjusted to work at any desired depth. They are entirely independent of each other, th- depth being takes directly from the bar which holds them.

This Cultivator has no superior-It is Light. Strong and Durable.

Fine Ordered Clothing.

James Walters. Cutter. Here are two simple roles for sensible clothes-buying: 1, get antisfaction: 2, don't pay too much for it.
What suits somebody else might not suit you. In making clothes we always have in mind men of most exacting and particular tage,
with the idea that what satisfies them ought to satisfy anybody.
The requirements for this are three: First, right styles; the knowle dge that your clothes are correct is one of the few things in this world
that are worth what they cot. Second, perfect of it, the clothes must look right as well as be right. Third, good service is which means must
what we mean by "good service": you'll get it only from first class trimming a, fabries, limings and most of all first rates when the world had not a continued to the continued of them.

what we mean by "good service"; vou'll get it only from first class trimming a, fabrica, linings and most of all first rate tailoring. You get them all were without paying too much for them.

We do not particularize our stock as it would take up too much space. Suffice it to say that our stock of New Spring Fancy and Pigin unitings are the most complete in this part of the province. We make suits to order from \$11.00 up. We solicit your order.

For The Home In Spring For Spring Work

The Herring Spring-tooth Cultivator is not excelled in workmanshing strength or material and perfection of work. The teeth, which are twelvo in number, are made of the best English Spring Steel, and are placed in two combs in such manner that their points work on a line between the wheels, thus preventing the teeth from twisting or warping. They cannot possibly track, and it allows them to follow any uneveness in the ground, and thus thoroughly pulverizes all of it gone over. By means of two levers the teeth can be adjusted to work at any desired depth. They are entirely independent of each other, the depth being takes directly from the bar which holds them.

This Cultivates has no expense.

For Spring Work

The Herring Spring-tooth Cultivator is not excelled in workmanship, strength or material and perfection of work. The teeth, with are twelve in number, are made of the best English Spring Steel, and are placed in two combs in such manner that their points work on a line between the wheels, thus preventing the teeth from wisning or warping. They cannot possibly track, and it allows them to follow any uneveness in the ground, and thus thoroughly pulverizes all of it gone over. By means of two levers the teeth can be adjusted to work at any desired depth. They are entirely independent of each other, th-depth being takes directly from the bar which holds them.

For Spring Work

The Herring Spring-tooth Cultivator is not excelled in workmanship, strength or material and perfection of work. The teeth, which are twelve in number, are made of the best English Spring Steel, and are placed in two combs in such manner that their points work on a line between the wheels, thus preventing the teeth from twisting of warping. They cannot possibly track, and it allows them to follow any uneveness in the ground, and thus thoroughly pulverizes all of it gone over. By means of two levers the teeth can be adjusted to work at any desired depth. They are suriety from the bar which holds them.

This Cultivator has no surveries.

This Cultivator has no superior. It is Light. Strong and Durable It is Easily Handled. Price \$25.00. THE HAPANEE AGRICULTURAL WORKS

Warmer Weather Underwear, short sleeves, long sleeves and so sleeves at all, white, cream and black, high neck, and low each. For large women and small women, for bug girth and little girts. We placed our order with the manufacturers and now we have them part as we wanted them. Now is your time to lay in a goodly supply and he comfortable when the weather changes.

Petticoata.

Petticoate.

The three new numbers we are showing are made from an excellent quality of mercerized cloth, differently trimmed with accordinal petaring and ruffles. Just the thing to be worn with the long dressy skirts. \$1.75, \$2.35, \$3.00 each.

If You Need a Belt

The kind you want is waiting for you and and ten chances to one the price will be much less than you expected to pay. Patent léathers that are cut to fit the wearer, 15 clts. Stitched priested belts, 2 a and 90 ch. Undersead leather in getry with silver and gold buckles, 50 and 75 clts.

Rain Coats. Save the price of themselves many times over. It is not necessary to invest \$15,00 for our best unless you wish. The chances are that our \$5,00 coat would save a \$10.00 costume from destruction the first six months you had it.

Our \$5.00 coat is English made, rubber lined, colors, fawn and black.

Veila.

Some Veils go better with some costumes than others. Then again some veils go well with most any costumes. When the veil is used as drapery-considerable variety is added to costume by changing veils. Large chenilie spots are good, all black and mixed spots of white and black in fancy meshes Gray mesh with black spots is new. 25 to 50 cfts. a yd.

Women's Umbrellas

Our new unbrellas are fitted with the new Century Roll. No tearing of gloves in opening and closing. Easy to open and shirt. Overs of durable Gloria from \$1.00 up. Handles all personally selected and comprise plain, carved and the rrore elaborate metal decorations, also Rustic handles.

Jaunty Walking Skirts.

Twelve styles to select from but not as many colors as the shades are monty rung in on change of most blike and black. If you want as group, hard to find a better shade than dark grey. Three sellers at 4 00, 450 and 500 each.

The Hate for Young Men and Old Men.

In our stock you will find just the hat the suits you and at a far less price that you are peterted to pay for it. Washendel hardwards and Derbys—the best hat in the matter wash and be bought only here in Napanes.

Soft hats, all colors, from 50 cfs. up to \$100.

CONSERVATIVE GATHERING.

OF THE COUNTY OF LENNOX

Don't let your enthusiasm over the election cause you to forget the great clearing out sale at the Big Store. This has been the greatest sale of Dry Goods and Clothing Mapanee has ever seen, because the goods have all been worthy and reliable, and the prices in many cases less than the mann facturers. There still remains many thousand dollars worth of goods to be disposed of, and to get them out of the way we will offer greater bargain than ever. This is our loss and your gain. Such bargains are seldom offered to the people of Napanee, so shop early and secure the goods you need most at the Sale Prices.
